SENIORS 08/05/2010

A win's a win

A day that had the seniors bursting with confidence and even though we tried to play it down we were all still pretty confident. Which, in turn was probably our hardest opponent all day. What was a suspected easy victory, turned into a bloody hard slog with a lunge over the line.

We started out complacent and overall lazy which led to a sloppy play converted into a goal scoring opportunity and a 1-0 score line to United.

Only ten minutes in and we were already down, it was a big shock for us all to see that United was here to give us a game. This sparked us into a bit of a frenzy as we began to push for an equaliser. This came through Danny Eaves about 25 minutes in.

Not our best half of soccer was being played but we were getting through it and making plenty of chances on the way. With about 12 corners and 5-6 free kicks we had a total of 14 shots either on target or very near in the first half, to their one shot and one goal.

Half time score 1-1.

We were confident that we could still win this game and were sure that the floodgates were about to open up in front of goals. We continued to press the goals and create an abundant amount of chances, which led to 3 more goals. A header and a penalty to Danny finished off his hat trick. And a great piece of

footwork in a tight area, for Andrew Keygans first goal for the regular season.

As most of games so far, we can't seem to run out 90 minutes and this showed again as united managed to grab two goals right near the end and really push us for a draw and their first points for the season. We managed to hold out and just scrape over the line and get the three points we were searching for. We are losing any sort of focus we have and a good team would have really punished us. We were probably lucky to get away with it in this case.

Final score 4-3.

With this win though the ladder only grew tighter as we are now equal with Burnie on 9 points and only 6 points behind ladder leader Devonport. It could be an interesting year, keep battling through it guys.
